REACT DEVELOPER | FRONT-END DEVELOPER

PROFESSIONAL SUMMARY

Experienced front-end React developer and team leader with a proven ability to deliver high-quality, user-centric web solutions. With 3+ years of React development experience, I have built and optimized high-traffic websites for millions of users. Over 4+ years of leadership experience, I have successfully managed teams, optimized workflows, and fostered strong client relationships. My unique blend of technical expertise and leadership allows me to drive impactful digital solutions, ensuring both project success and business growth.

AREAS OF EXPERTISE

✓ React	✓ Responsive Design	✓ Typescript	✓ Web Sockets	✓ Front-end
✓ Tailwind CSS	✓ Javascript	✓ JSX	✓ Mocha	✓ Webpack
✓ Next.js	✓ RESTful APIs	✓ GraphQL	✓ NPM	✓ HTML

CAREER HIGHLIGHTS

React Development: 3+ years of experience in front-end development, I have built and optimized high-traffic websites using React for high profile clients. My work has contributed to scalable, user-friendly interfaces, ensuring performance, accessibility, and seamless user experiences.

Team leadership: 4+ years of experience leading diverse groups to achieve operational excellence and drive growth. My focus on collaboration, strategic planning, and clear communication has optimized workflows, enhanced team performance, and strengthened client relationships.

PROFESSIONAL EXPERIENCE

FRONT-END REACT DEVELOPER | **BLVD INTERACTIVE**
REMOTE | OCTOBER 2024 – CURRENT

I work as a front-end React developer at BLVD, a boutique digital agency with less than 20 employees specializing in business strategy solutions for high-profile clients. My role involves building and optimizing user interfaces that enhance online presence, brand awareness, and drive client success.

- **Delivered a successful redesign for Toyota Racing within an accelerated timeline**, aligning with Toyota's release schedule by optimizing development workflows and ensuring efficient collaboration.
- **Enhanced Toyota Racing's brand awareness and online presence**, as measured by a seamless launch and positive client feedback, by executing a high-quality front-end redesign under tight deadlines.
- **Met expedited project deadlines without compromising quality**, by leveraging React best practices, streamlining development processes, and closely coordinating with stakeholders

TEAM LEAD | **PLUSQA**

PORTLAND, OR | MARCH 2018 – CURRENT

I work as a Team Lead at PlusQA, a web and mobile app testing company with around 60 employees. My role involves direct communication with clients, understanding their needs, and ensuring that our testing strategies align with their goals. I'm responsible for creating comprehensive testing plans, managing projects, and leading a team to deliver high-quality results.

- **Expanded OpenAI's QA contract from 40 to 144 hours per week within a year** by delivering high-quality testing results and demonstrating the value of thorough mobile app testing.
- **Increased testing coverage from a single mobile app to multiple platforms** (web, Windows/Mac apps) by building trust with the client through consistent communication, strategic test planning, and actionable reporting.
- **Strengthened PlusQA's partnership with OpenAI, as measured by additional service requests and contract growth**, by leading a structured and data-driven QA approach that improved product stability and user experience.
